

SRX812P

12" Two-Way Bass Reflex Self Powered System

Key Features:

- ▶ JBL premium Transducers
- ▶ 2000 W highly efficient Crown Amplification
- ▶ Full User Configurable DSP
- ▶ Maximum SPL Output: 136dB
- ▶ System Type: Self powered 12", two-way, bass-reflex
- ▶ Frequency Range (-10dB): 40Hz - 21kHz
- ▶ Frequency Response (-3dB): 48Hz - 20kHz
- ▶ Coverage Pattern: 90 x 50
- ▶ Network Control
- ▶ JBL Engineered Application Presets
- ▶ LCD Screen and glow in the dark ink on back panel
- ▶ M10 Suspension Points
- ▶ Standard dual-angle 36mm pole cup
- ▶ Feet for monitor angle
- ▶ Lightweight poplar plywood cabinets made structurally sound with tongue and groove joints and protected by JBL's tour proven DuraFlex™ finish

Applications:

- ▶ The SRX812P is a powered portable PA speaker in the SRX800 series from JBL Professional. It has been designed to deliver class leading performance in a variety of applications including use as a main PA, a stage monitor, and rear and side fills. When used in conjunction with the other SRX800 full range systems and the SRX800 subs, SRX812P is an integral part of a high performance, fully configurable loudspeaker system.
- ▶ The SRX812P features premium JBL Transducers. High frequencies are handled by an annular polymer diaphragm compression driver that features a best in class 3" voice coil coupled to a 1.5" throat opening. Using a neodymium magnet, the compression driver is lightweight, efficient, and extremely powerful. This delivers very high power levels with reduced distortion and increased phase coherence resulting in smooth, crystal clear high frequencies. For Low Frequencies, the SRX812P uses a 12-inch woofer with JBL's patented Differential Drive Technology for reduced weight while maximizing power amp efficiency. 3" voice coils and dual ferrite drivers deliver exceptionally low distortion and extended low frequency response.
- ▶ The SRX812P features a full suite of onboard user configurable DSP including 20 PEQs, 2 seconds of delay, signal generators, input mixing, amplifier monitoring, and 50 slots for recallable presets, including 7 JBL-engineered application presets. In addition, the system is compatible with V5 JBL Tunings, and features 96kHz FIR Filters, and LevelMax™ Limiting providing compatibility with our flagship Vertec and VTX touring systems.
- ▶ System control and networking is provided by Audio Architect, and a standalone application for iOS and Android. Simple wired control is provided via an Ethercon connector on the back of the system and wireless control is possible using a standard off the shelf wireless router.

Specifications:

System:

System Type:	Self powered 12", two-way, bass-reflex
Maximum SPL Output:	136 dB
Frequency Range (-10 dB):	40Hz – 21kHz
Frequency Response (-3 dB):	48Hz – 20kHz

Amplifier:

System Power Rating:	2000W Peak, 1500W Continuous
Input Impedance:	40k balanced, 20k unbalanced
Line Input Gain:	21 dB
Consumer Input Gain:	33 dB
Mic Input Gain:	45 dB

Maximum Input Level:

Line:	20dBu
Consumer:	8dBu
Mic:	-4dBu

Connectors:	Neutrik ¼" XLR input; Neutrik XLR Output
-------------	---

LED Indicators:	Power LED (Green) Network Link (Green) Network Data (Yellow)
-----------------	--

Cooling:	On-Demand variable speed fan
----------	------------------------------

AC Power Input:	100V - 240V~ 50/60 Hz
-----------------	-----------------------

AC Power Consumption (120V~):	2.2A (1/8th Power), 5.6A (1/3rd Power)
-------------------------------	--

Speaker:

LF Driver:	2272F
HF Driver:	2432H
Coverage Pattern:	90 x 50
Crossover Frequency:	1.9kHz

Enclosure:

Material:	18mm plywood
Monitor Angle:	Yes
Suspension/Mounting:	Dual 36mm pole socket, 12 x M10 Suspension points
Handles:	3
Finish:	Obsidian DuraFlex™ finish
Grille:	Powder coated, Obsidian, 14-gauge perforated steel with acoustically transparent black cloth backing
Dimensions (L x W x H):	16.87" x 16.31" x 25.11" (429mm x 415mm x 638mm)
Weight:	58.0 lbs (26.4 kg)
