

THE BEST HIGH-PERFORMANCE SUBWOOFERS KLIPSCH HAS EVER MADE

**HYPER-EFFICIENT BALANCED PERFORMANCE**

Striking the optimal balance between amplifier power, driver capability and cabinet volume, Reference Premiere subwoofers achieve maximum low frequency extension with great output, accuracy and speed.

**SPUN COPPER FRONT-FIRING CERAMETALLIC WOOFERS**

Newly designed Cerametallic™ woofers are exceptionally light and extremely rigid, providing remarkable low frequency response with minimal cone breakup and distortion for higher, cleaner output using less amplifier power.

**HIGH EFFICIENCY CLASS D AMPLIFIER**

The built-in, high efficiency amplifier features an analog preamp design, which maintains the original signal path for cleaner, true-to-source reproduction. The Class D output stage ensures maximum efficiency for maximum output, detail, and low frequency power.

**FRONT-FIRING SLOT PORT WITH EXCLUSIVE INTERNAL FLARE TECHNOLOGY**

Proprietary internal geometry with a new Aerofoil slot port design minimizes port noise for clean undistorted low frequencies. The front-firing design allows for placement flexibility.

**WA-2 WIRELESS SUBWOOFER KIT CAPABLE**

The Klipsch WA-2 Wireless Subwoofer Kit (sold separately) allows high resolution wireless connectivity for easy placement anywhere in your room and optimizes output and low frequency response. Connect up to four WA-2 wireless kits to compatible Klipsch subwoofers in a single room for a completely wireless connection.

**FLEXIBLE CONTROLS**

Low Pass Crossover and Variable Phase control allows you to tune the subwoofer to your Klipsch speakers and to your room, establishing the ideal level of bass. Line Level / LFE RCA inputs ensure compatibility with home theater receivers.

**1/2-WATT STANDBY MODE**

Exceptional efficiency on or off. Meets global efficiency standards - reducing energy costs for the user.

**USE INPUTS SIMULTANEOUSLY**

Both the RCA and wireless inputs can be utilized, giving you the ability to use a single subwoofer with multiple system in the same room. For example, you can use the wireless input for your home theater set up and the RCA input for your 2-channel system, without needing to switch inputs when changing between systems.

**ULTRA-DURABLE EBONY FINISH**

Scratch resistant ebony vinyl finish looks like real wood and covers the entire cabinet.

**DETAILED DESIGN**

Rounded corners, shock-absorbing rubber feet, steel grille posts and a woven cloth grille ensure a premium look and feel.

**5-YEAR WARRANTY**

Pound for pound better sound and built to last.

| SPECIFICATIONS          |                                                 |
|-------------------------|-------------------------------------------------|
| FREQUENCY RESPONSE      | 16.5Hz - 138Hz +/- 3dB                          |
| MAXIMUM ACOUSTIC OUTPUT | 121dB                                           |
| AMPLIFIER TYPE          | Class D with Analog Preamp Stage                |
| AMPLIFIER POWER         | 400W RMS / 800W Peak                            |
| WOOFER                  | 12" Ultra Long Throw Cerametallic               |
| ENCLOSURE MATERIAL      | MDF                                             |
| ENCLOSURE TYPE          | Bass Reflex via Front-Firing Aerofoil Slot Port |
| INPUTS                  | Dual RCA/LFE Line In, WA-2 Wireless Port        |
| HEIGHT                  | 18.89" (48 cm)                                  |
| WIDTH                   | 17.00" (43.2 cm)                                |
| DEPTH                   | 25.92" (65.8 cm)                                |
| WEIGHT                  | 68.6 lbs (31.1 kg)                              |
| FINISH                  | Ebony Vinyl                                     |
