

A black Shure ADXR wireless bodypack receiver is shown resting on a dark, textured surface, likely a stage floor. Two long, thin antennas extend upwards from the top of the device. A coiled white cable is visible to the left of the receiver. In the background, out-of-focus stage lights create a bokeh effect. The Shure logo is visible on the front of the device and in the top right corner of the image.

## NEXT-GENERATION DIGITAL IN-EAR MONITORING.

The ADXR Wireless Bodypack Receiver for Axient Digital PSM delivers the highest quality personal monitoring experience for performances on the biggest stages and most prestigious arenas. Tour-grade features include True Digital Diversity that combines two discrete RF signals for greater RF quality and range, ShowLink® that provides engineers with comprehensive real-time remote control of all the ADXR parameters, and CueMode that allows engineers to easily monitor up to 64 encrypted stage mixes from a single pack. Superior stereo separation, crisp, clear digital audio, and Automatic Impedance Detection that allows ADXR to pair with any professional in-ear monitors brings unprecedented clarity and simplicity to global artists everywhere. Axient Digital PSM ADXR is compatible with the Axient Digital PSM ADTQ and ADTD wireless transmitters.

### AXIENT DIGITAL PSM ADXR FEATURES:

- Axient Digital PSM wireless bodypack receiver for onstage in-ear monitoring and broadcast IFB
- ShowLink technology delivers real-time remote control of all ADXR bodypack wireless receiver parameters from the monitor mix position and elsewhere
- True Digital Diversity reception combines two discrete RF signals, dramatically improving signal reception and range
- Superior stereo separation
- Wide tuning range to cover more cities, festivals, and events on tour
- CueMode with encryption supports monitoring of different stage mixes and storing of up to 64 separate channels on one bodypack for quick and easy reference
- Durable, moisture-resistant design with lightweight hybrid aluminum/polymer enclosure
- Threaded headphone connector for added protection against sweat and moisture
- External charging contacts for convenient docked charging
- Includes 2 x SB910 lithium-ion rechargeable batteries
