Zone 8

8 zone audio controller with DSP and WebApp

Optimal Audio

FEATURES

- Full suite of audio controls for up to 8 zones
- Fully flexible signal routing
- WebApp interface for easy system configuration and everyday control
- 2 mic, 4 stereo line and 2 HDMI inputs
- Fully programmable presets and timed events
- Very competitive pricing

Flexibility and ease of use are core values of Optimal Audio and the Zone series has been created to give you easy access to everyday controls.

Zone 8 allows the user to independently allocate sources across eight configurable zones, which could be anything from the bar, back of house or lobby to restaurant, kitchen or shop floor.

Zone 8 is the heart of any sound system, handling audio signal management for eight zones. Each

Zone can be configured to do precisely what is required using the intuitive WebApp. It features 4 line and 2 mic inputs plus 2 HDMI inputs for TV and video sound.

Zone 8 has been designed to work seamlessly with other products in the Optimal Audio range and when coupled with our ZonePads and SmartAmp series provides a simple, intuitive and cost-effective audio system with superb sound quality.
