The EVIVA 18SP is an 18-inch powered portable subwoofer that brings Electro-Voice quality sound and reliability to aspiring musicians, DJs, and small venues. It has been designed for quick deployment, so its user-friendly control and easy connectivity combine well with a lightweight design and rapid setup process to ensure that fast, single-person setup is possible. Electro-Voice has launched the EVIVA family to deliver best-in-class performance from a performance focused portable powered loudspeaker. To achieve this optimal sound quality, EVIVA 18SP features large slot ports for low distortion and excellent bass extension. Weighing just 30.7 kg, EVIVA 18SP offers extended frequency range of 38 Hz – 200 Hz (-10 dB) and high maximum SPL of 132 dB, delivering deep, powerful bass across the audience area. It offers industry standard connectivity to make setting up any gig as fast as possible with two XLR/TRS combo jack line inputs, two XLR pass through outputs, switchable low pass frequency and reversible polarity. The 18-inch subwoofer features a robust plywood enclosure, 1000 W amplifier, and 2-channel analog input section. The intuitive control panel features one gain knob for level adjustment and switches for mode changes between **MUSIC** and **LIVE**, low pass between **100 Hz EVIVA 12P / 15P** and **150 Hz** and polarity between **NORMAL** and **REVERSE**. The subwoofer is

powered via an IEC mains input with universal mains voltage input 100 - 240 V auto-switching. Included power cord varies per region.

The portable powered subwoofer features a durable all-metal handles and interlocking feet for stacking, as well as a simple setup process to ensure users can get the most out of their system quicker.

The universal appeal of EVIVA 18SP is backed by a range of existing accessories. PCL35 and ASP-58 poles fit the subwoofer's M20 threaded mount.
